Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 41-43, 45-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kaufmann et al in view of Smith for the reasons set forth in paragraph 3) of the previous Office action.
3. Claims 44, 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kaufmann et al in view of Smith as in the rejection of claims 41 and 45 respectively above, further in view of Horvath et al for the reasons set forth in paragraph 4) of the previous Office action.

Allowable Subject Matter

4. Claims 26-32, 35-40 are allowed.

Response to Arguments

5. Applicant's arguments filed 10/21/04 have been fully considered but they are not persuasive. Applicant argues for patentability of the claims over the cited prior art in that the combination of Kaufmann and Smith by the examiner is not well taken and the combination would teach making the housing of the Kaufmann device metal. However it is the teaching of Smith relied upon by the examiner not the physical incorporation of elements from one patent to another. Smith clearly teaches that it is desirable to eliminate static electricity by grounding a yarn contacting member. One of ordinary skill in the art would have readily recognized that in a

plastic housing such as Kaufmann a metallic grounding conductor between a yarn contacting member and the frame would eliminate static electricity and would have been motivated to do so by the teachings of Smith.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John M. Jillions whose telephone number is (703) 308-2685. The examiner can normally be reached on M-F 9:15 - 5:45.
